kicked sand on each other for awhile that we ought to try to figure out whether or not this bill provides for better public policy, and if it does, move it along because I think that's what citizens of this state expect from us. Who are we going to hurt if this bill doesn't pass? Citizens of this state, in my opinion, those people that could be employed by businesses that will be able to access the benefits of this particular piece of legislation. So with that, I would yield the balance of my time, Mr. Speaker.
